

Comparison of the water resources of the countries involved in “Water in Our Life”

Country	Country or region population	Rate of raining (mm/year)	Average water consumption per person (litres/day)	Surface water resources (hm ³)	Underground water resources (hm ³)	Fresh surface and ground water ¹ (hm ³ /year)	Total freshwater abstraction by public water supply ² (m ³ per person)	Population connected to urban wastewater treatment ³ (per cent)
SPAIN	47,190,000	600	160	27,738	6,022	34,277	127	92 (2008)
TURKEY	75,627,384	642.8	217	98,000	14,000	46,956	54	46 (2008)
CZECH REP.	10,513,000	693 ⁴	88 ⁵	8,788 ⁶	1,594 ⁷	1,887	64	76 (2008)
ITALY	59,700,000	750	250	37,000	13,000	9,108	153	69 (1999)
POLAND	38,533,522	626,8	84,86	68,000	17329	11,911	82	64 (2009)

One cubic hectometre (hm³) is equal to one million cubic metres (m³): 1 hm³ = 1,000,000 m³
