

LIFELONG LEARNING PROGRAMME – COMENIUS MULTILATERAL PARTNERSHIP

WIOL (WATER IN OUR LIFE)

FIFTH MEETING (BRNO/CZECH REPUBLIC) 03.05.2015–08.05.2015

Before the Brno meeting:

- ✓ All the partners coming to Brno prepared a CLIL lesson on the topic of water. They presented it at their schools beforehand.
- ✓ All the partner schools prepared a short video (about 90 sec) with the topic of water consumption for a competition.
- ✓ All schools created a part (about 30 sec) for a common video – commercial on the water use.
- ✓ After the meeting in Italy the motto of the project was chosen: **“Keep a drop for the future!”**
- ✓ All schools were looking for ways how to reduce the water consumption, and prepared their suggestions as a presentation for the Brno meeting.

During the Brno meeting:

- ✓ The CLIL lessons were taught by the foreign groups in four local classes.
- ✓ The parts for the common video (commercial) were presented by all countries.
- ✓ The students presented and discussed their suggestions how to cut on the water consumption. Common conclusions were taken.
- ✓ The competition among the short videos took place. The winner was the video of the school from Brno.
- ✓ All guests took a look round the host school.
- ✓ In the Moravian Karst the group of students and teachers saw the water as the creator of caves.
- ✓ The group visited Prague to realize the importance of the river Vltava for the life and beauty of the city.
- ✓ Then the teachers saw the system of the water supply in the Villa Tugendhat, while the students saw water experiments in the Vida Scientific Centre.
- ✓ Water activities as a team building activities including teachers and students altogether were held in a swimming pool with toboggans.
- ✓ A meeting of coordinators took place during the journey from Prague to Brno.

After the Brno meeting (the tasks and unfolding of the following project activities):

- ✓ The coordinators decided to meet in Turkey **from 13 June to 16 June 2015** to discuss the content of the final report and to prepare the main parts of it.
- ✓ The common video will have been prepared by the **Turkish** group by 13 June.
- ✓ A summary of ideas how to reduce the consumption will have been written down by the **Czech** group by 13 June.
- ✓ Unfulfilled tasks will be completed locally (measurements of water qualities; an excursion to an aquaculture research or production centre; watching films, plays or acting on reducing water consumption)
- ✓ The websites will be updated!
- ✓ Dissemination of the outcomes will start.
