

Comenius Project “ **Water in Our Life**” in Palermo from 8th December to 13th December 2014.

The fourth meeting took place in Palermo (Italy) with the following agenda :

- presenting the host organization, region, town and school;
- presentations of both measurements (summer and winter) prepared by students;
- brainstorming on topics for CLIL lessons and deciding the topics for each country by teachers;
- doing some sport ice-breaking activities such as a basket match among students to involve them in two international teams;
- doing some chemical experiments using water prepared by students;
- exchange of ideas about teachers’ or students’ preparation for their CLIL lessons.

Teachers also decided before the last meeting in Brno:

- to present the CLIL lessons at each school beforehand ;
- to prepare a short video recorded locally by each school with a topic of water consumption involving both teachers and students
- to create a common video- commercial on the water use ;
- to choose a “motto” for the project;
- to find ways on how to reduce water consumption at school and at home.

During the meeting we visited the following places:

- the Valley of Temples and the Garden of Kolimpetra in Agrigento;
- the Dome and the Cloister in Monreale;
- the lake Orange with its dam in Sambuca of Sicily where we were informed by local experts about how to get from the dam the water necessary to cultivate grapes and olive trees;
- the winery Planeta and the Theatre Idea, the Palace Pannettieri, the Giambecchina Museum, the
- Cathedral in Sambuca of Sicily;
- the Cathedral, the Palace of Normans, the Palatine Chapel in Palermo.

This was also an occasion to taste the delicious typical Sicilian dishes prepared by the host families.
