

LIFELONG LEARNING PROGRAMME – COMENIUS MULTILATERAL PARTNERSHIP

WIOL (WATER IN OUR LIFE)

THIRD MEETING (TYCHY/POLAND) 02.06.2014-07.06.2014

- ✓ All the partner schools visited a dam/water treatment in their own country in May.
- ✓ The students of each partner school started to observe the amount of water consumption for one month (starting from May 15) both at home and at school. Water consumption of at least twenty houses are being measured .
- ✓ During the meeting in Poland, the participants visited a water treatment centre and met an expert who had a briefing about water resources..
- ✓ The students and the teachers together participated in some water activities together in a swimming pool.
- ✓ Spanish partner prepared a common presentation comparing the results of the questionnaire on national water resources and shared it with all partners.
- ✓ During the teachers' meeting, participants talked about what had been done so far about the project activities- whether all the goals were achieved or not. It was seen that everything was going as planned and there were no missing activities according to the agenda. The teachers shared ideas about filling in the interim report form.
- ✓ The partners talked about the website of the project of each school and decided what to add more or leave from their websites.
- ✓ **The partners looked through the agenda for the following year. As Greek partner does not take part in the project as planned, so they had to change the order of the activities. According to the decisions taken by the partners all together:**
 - **The meeting in Italy will take place at the end of October or first week of November. The dates are going to be suggested by the Italian partner in a short time.**
 - **The partners decided to distribute the tasks of the meeting in Greece.**
 - **In Italy meeting, the partners will come with the ideas of mottoes for the common commercial on reducing water consumption. They will share ideas about CLIL lesson topics to be presented in Brno meeting. The students will present their presentations on comparing water consumption in summer and winter.**

- Between Palermo and Brno meeting, each partner will record the parts of the **common commercial** (30 seconds for each partner). Before Brno meeting, all parts of the commercial will be combined together and shared on websites and facebook page of the project. Apart from that, each partner country will record one **commercial** about saving water (about one minute-one minute and a half) before the meeting in Brno and publish the videos on their websites and facebook.
- Brno meeting will take place at the last week of April or the first week of May. The **CLIL lessons** will be presented during Brno meeting in the partner school. The students (participants from each country) will prepare a presentaion about the **ways to save water** and present it in the meeting. Brno meeting will be the last transnational meeting of the project.
